

AAE becomes partner of actuvview

As expressed in the strategic objectives, the AAE fosters the exchange of information and ideas between its member associations and individual actuaries. Making a broad and constantly updated library of actuarial content available to all European actuaries, is an ideal activity to add to this objective. Therefore, the AAE has recently decided to join actuvview.

As a follow-up initiative of the First Virtual ICA 2018, actuvview regularly collects digital actuarial content for the community – either broadcasted live from international actuarial events, provided as recorded sessions from partners or produced as webcasts by individual experts.

Thanks to the new partnership with actuvview, all AAE Member Associations will be able to provide their members and students with free access to the entire content on actuvview.

ANNOUNCEMENT
